

Our grooved pads have been specially designed for the discontinuous soft mounting of railways on chairs using GANTREX® rail fixing clips.

Our grooved pads :

- are available as standard, sized 180 x 137 x 4,5 mm.
- reduce rail and support wear :
 - absorb uneven surfaces.
 - improve contact between rail and support.
- show excellent vibration damping properties.
- are specially resistant to wear, shear, crushing, oxygen, as well as ultra-violet rays.

Material characteristics :

- Composition : SBR elastomer.
- Hardness : 75 Shore according to DIN 53519.
- Elongation : > 350 % according to DIN 504.
- Service temperature : from -25°C up to +75°C.

We reserve the right to discontinue or change specifications or design at any time without prior notice and without incurring any obligation whatsoever.
